1.6 Update Guide

1.6.1 Preparation Before Upgrade

Before performing the upgrade, you need to ensure the following:

1) Online Upgrade: This only upgrades the firmware version and does not affect user settings. It is recommended to use this method during normal operation.

2) The screen mirroring device is plugged into the computer and connected to the network.

1.6.2 Upgrade Operation

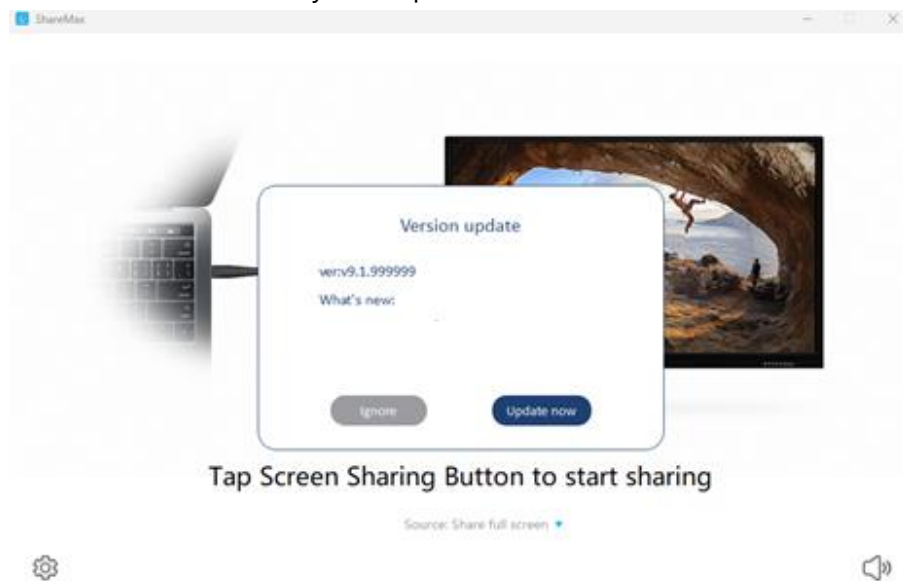

Upgrade via Online

Step 1: Access the Wireless transmitter 's drive interface and click "Settings > About".

Step 2: Click "Check for New Version". An update package will be detected. After confirming the version, click "Upgrade Now". The update will be downloaded and completed automatically.

If no system update is available, it will display "System is already the latest version!".

System Update Available

Step 3: After the upgrade is complete, the Wireless transmitter will automatically restart.
